Standard Methods for the Examination of Dairy Products, 14th Edition

Elmer H. Marth, Ph.D., Editor
Approximately 450 pages \$25

The authoritative 14th edition of **Standard Methods for the Examination of Dairy Products** is now available. Substantial and significant revisions provide current microbiological examination requirements for milk and milk products.

Containing the best methods for current and future needs, it has been adopted by several states as the sole source of methods approved for compliance with FDA quality assurance.
