

NOTICE TO CONTRIBUTORS

Authorship of Original Articles and Reviews.—Space in the Journal is reserved for the publication of original research voluntarily submitted by members of the association to the JOURNAL and review articles by invitation. In the case of joint authorship the membership ruling applies to one author only.

Papers that have already appeared in print or that are intended for simultaneous publication elsewhere, will not be accepted.

Manuscripts.—Manuscripts should be submitted in double spacing on one side of suitable 8½" × 11" paper. The original copy—not the carbon—should be furnished, packing it flat—not rolled or folded. All illustrative and tabular material should accompany the manuscript. The position of each illustration and of each table should be clearly indicated in the text.

In the case of manuscripts, other than review articles prepared by invitation, that contain more than 12 printed pages, the author is charged at the rate of \$5.00 per page for all pages in excess of twelve. This charge is omitted in the case of articles of extraordinary merit.

Manuscripts voluntarily submitted, when approved for publication, will be published in the order of their receipt. Manuscripts should be sent to the Editor, T. S. SURTON, Plumb Hall, Ohio State University, Columbus, Ohio.

Drawings.—Drawings, diagrams and charts for illustrations should be prepared for reproduction as line drawings or halftone engravings. The original drawings should be done in India ink on white or blue-white tracing cloth, tracing paper, or Bristol board and neatly lettered in India ink. Legendary material on the drawing should be neatly lettered in India ink—not typewritten.

The original drawings—not photographs of the drawings—should accompany the manuscript. Illustrations not in proper finished form will be prepared for publication and the author charged for the cost of the work.

Photographs.—Photographs for halftone reproductions should be glossy prints, free of all imperfections.

Legends.—All illustrative materials, both drawings and photographs, should be accompanied by appropriate legends, typewritten on a separate sheet of paper.

Tabular Material.—Tabular material in the manuscript should be clear, concise and accurate. Simple tables are more effective than complicated ones. If possible, tables should be so organized that they may be set crosswise of the page. In many instances it is possible to materially improve the appearance and usefulness of tabular material without sacrificing completeness of information, by condensing detailed data and presenting them in a simple table summarized form.

References.—References should be listed alphabetically as to authors and numbered; and citations in the text should be made by the number in parentheses, corresponding to the number in the reference list.

Each reference should contain the following data in the following order: Name and initials of author or authors; title of the article referred to; principal words in the titles of all articles should be capitalized; name, volume, number, page number and year of publication.

Abbreviations of the titles of publications should conform to the standard set by the United States Department of Agriculture given in U. S. Dept. Agr., Misc. Pub. 337, April, 1939.

For uniformity of punctuations the references should conform to the following example: (1) JONES, L. W., AND SMITH, J. D. Effect of Feed on Body of Butter. JOUR. DAIRY SCI., 24: 4, 550-570. 1941.

References should be carefully checked for accuracy by the author.
