

NEW ZEALAND JOURNAL OF DAIRY SCIENCE AND TECHNOLOGY

Volume 11, No. 1 (March) 1976

RESEARCH PAPERS

- N. J. WALKER and D. J. MANNING, Components of the Musty Off-Flavour of Stored Dried Lactic Casein
M. F. PEBERDY and T. F. FRYER, Improved Selective Media for the Enumeration of Propionibacteria from Cheese
H. A. HEAP and R. C. LAWRENCE, Selection of Starter Strains for Cheesemaking
J. R. MILNE and R. SMYTH, Rapid Determination of Somatic Cells in Milk
C. TOWLER, Conversion of Casein Curd to Sodium Caseinate
L. K. CREAMER, A Further Study of the Action of Rennin on β -Casein
A. K. R. McDOWELL, C. R. SOUTHWARD and P. D. ELSTON, Effect of Iron on the Colour of Rennet Casein Plastic
B. C. RICHARDSON and L. K. CREAMER, Comparative Micelle Structure V. Isolation and Characterization of Major Ovine Caseins
I. K. GRAY, Rapid Gas Chromatographic Method for the Determination of Lactic Acid in Whey

REVIEW

- M. H. ABD EL-SALAM, S. EL-SHIBINY and A. H. FAHMI, Domiati Cheese

SHORT COMMUNICATIONS

- J. ROEPER, High-Calcium Phosphate Casein Products for Use in Food Systems
G. K. Y. LIMSOWTIN and B. E. TERZAGHI, Agar Medium for the Differentiation of 'Fast' and 'Slow' Coagulating Cells in Lactic Streptococcal Cultures

TECHNICAL NOTES

- J. ROEPER and P. D. ELSTON, Low Wet-Processing Temperatures in Lactic Casein Manufacture
K. R. MARSHALL, J. L. SHORT and R. K. DOUGHTY, Use of Cation Exchange in the Production of Traditional Lactalbumin from Cheddar Cheese Whey
J. GILLES, Moisture Control in Cheddar Cheese

This quarterly Journal is edited by an international Editorial Board, and is devoted to papers, reviews, short communications and technical notes on all aspects of dairy science and technology. A particular feature of editorial policy is the prompt publication of such material.

ANNUAL SUBSCRIPTION (4 issues):

\$ (NZ) 17.00 airmail
\$ (NZ) 13.00 surface mail

Material for publication may be forwarded to the Editor; subscription and publication details are available from the Subscription Co-ordinator.
