Publication Page Charge: In June 1967 the Board of Directors of ADSA approved a page charge of \$20 per page for material published to apply to manuscripts received subsequent to December 31, 1967. Payment of this charge is not a condition for acceptance of a paper. The action of the Board was deemed necessary if the Journal is to continue to grow in publishing the research material so vital to the dairying interests. A fund will be established to defray the charges of authors who are members of the Association and who through application to the treasurer of ADSA say that they are unable to pay charges and that the institution or organization with which they are affiliated is also unable to pay the charges. Under such conditions the treasurer will be authorized to pay the charges from the established fund.
