

Journal of Dairy Science

August 1975

Volume 58, Number 8

CONTENTS

NEWS AND EVENTS	4
GENERAL INTEREST:	
Administrative Information	3
Abstracts of Papers Presented at the Northeast Divisional Meeting of ADSA	1238
RESEARCH PAPERS:	
Reuse Limits and Regeneration of Solutions for Cleaning Dairy Equipment. S. M. Kulkarni, R. G. Arnold, and R. B. Maxey	1095
Complete Rations for Dairy Cattle. III. Evaluation of Protein Percent and Quality, and Citrus Pulp-Corn Substitutions. H. H. Van Horn, S. P. Marshall, C. J. Wilcox, P. F. Randel, and J. M. Wing	1101
Complete Rations for Dairy Cattle. IV. Comparison of Supplemental Nitrogen Sources by Metabolizable Protein Concept. P. F. Randel, H. H. Van Horn, C. J. Wilcox, H. Roman-Ponce, S. P. Marshall, and K. C. Bachman	1109
SYMPOSIUM: APPLICATION OF ENZYME TECHNOLOGY TO DAIRY MANUFACTURING	
Immobilized Peroxidatic and Milk-Clotting Enzymes. N. F. Olson and T. Richardson	1117
Enzymatic Modification of Milk Flavor. W. F. Shipe, E. C. Lee, and G. F. Senyk	1123
Application of Lipolytic Enzymes to Flavor Development in Dairy Products. R. G. Arnold, K. M. Shahani, and B. K. Dwivedi	1127
Direct Enzymatic Conversion of Lactose in Milk to Acid. A. G. Rand, Jr. and J. A. Hourigan	1144
SYMPOSIUM: PRODUCTION EFFICIENCY IN THE HIGH PRODUCING COW	
Effect of Intake on Digestive Efficiency. H. F. Tyrrell and P. W. Moe	1151

**SYMPOSIUM: PROTEIN AND AMINO ACID NUTRITION IN THE
HIGH PRODUCING COW**

Quantitative Aspects of Nitrogen Utilization in Ruminants. J. P. Hogan	1164
Lactational Responses to Postruminal Administration of Proteins and Amino Acids. Jimmy H. Clark	1178
Rumen Bypass and Protection of Proteins and Amino Acids. William Chalupa	1198
Nitrogen Requirement and Utilization in Dairy Cattle. L. D. Satter and R. E. Roffler	1219
