

Journal of Dairy Science

May 1977

Volume 60, Number 5

CONTENTS

NEWS AND EVENTS	4
GENERAL INTEREST:	
Administrative Information	3
RESEARCH PAPERS:	
Economics of Selection Programs for Artificial Insemination. R. H. Miller	683
Monthly Variations in Gross Composition of California Herd Milks. J. C. Bruhn and A. A. Franke	696
A Nephelometric Procedure for Determination of Fat and Protein in Milk. D. C. Beitz, M. E. Phillips, and S. H. Eklund	701
Distribution of Dichromate in Preserved Milk-Toward Utilization of Spent Milk Samples from Centralized Testing Laboratories. J. C. Weaver, M. Kroger, and R. D. McCarthy	706
Cellular Lactation and Characteristics of Peptidase Enzymes in Lactic Streptococci. R. H. Schmidt, H. A. Morris, and L. L. McKay	710
Isolation and Characterization of Nonesterified 3-Hydroxy Acids in Milk. Owen W. Parks	718
Quantification of Selected Serum Proteins of Milk by Immunological Procedures. Maria Babajimopoulos and E. M. Mikolajcik	721
Feeding Value of Protected Animal Tallow for High Yielding Dairy Cows. G. K. Macleod, Y. Yu, and L. R. Schaeffer	726
Feeding Polyunsaturated Vegetable Oils to Lactating Cows. H. K. Goering, T. R. Wrenn, L. F. Edmondson, J. R. Weyant, D. L. Wood, and Joel Bitman	739
Feeding Value of Reconstituted and Finely Ground Sorghum Grain for Dairy Cows. D. T. Netemeyer, L. J. Bush, and G. D. Adams	748
Effects of Feed Intake and Physical Form on Energy Value of Corn in Timothy Hay Diets for Lactating Cows. P. W. Moe and H. F. Tyrrell	752
Effect of Potassium Isobutyrate on Absorption of Immunoglobulins from Colostrum by Calves. A. L. Baumwart, L. J. Bush, and M. Mungle	759

Predictability of Testicular Traits in Young and Mature Holstein Bulls Reared Under Different Systems. G. H. Coulter and R. H. Foote	763
Effect on Milk Yield of Moving Cows from Group to Group. P. W. Clark, R. E. Ricketts, and G. F. Krause	769
Feeding and Management Effects on Herd Differences in Milk Yield. M. A. Waheed, A. J. Lee, and G. W. Harpestad	773

TECHNICAL NOTES:

Best Linear Unbiased Prediction of Breeding Values Not in the Model for Records. C. R. Henderson	783
Influence of Ambient Ammonia Odor on Acceptance of a Nonurea Ration by Lactating Cows. A. F. Kertz, M. K. Brockett, L. E. Davidson, and N. L. Betz	788

OUR INDUSTRY TODAY:

Collecting and Handling Milk Samples. Sidney E. Barnard	791
How Can Universities Do a Better Job Communicating with the Dairy Industry? Eugene C. Meyer	795

SYMPOSIUM: PRACTICAL PERFORMANCE OF LACTIC STREPTOCOCCI

Practical Importance of the Lactic Streptococci. Marvin L. Speck	798
Influence of Medium and Temperature on End Products and Growth. E. B. Collins	799
Preparation and Storage of Concentrated Cultures of Lactic Streptococci. S. E. Gilliland	805
Influence of Lactic Streptococci on Bitter Flavor Development in Cheese. R. J. Lowrie	810
Antibiosis by Lactic Culture Bacteria. F. J. Babel	815
New Techniques in Handling Lactic Cultures to Enhance Their Performance. William E. Sandine	822

SYMPOSIUM: TEACHING DAIRY SCIENCE TO STUDENTS WITH DIVERSE BACKGROUNDS

An Administrator's View of the Important Deficiencies in Agricultural Education. James R. Nichols	829
Teaching Dairy Science to a Heterogeneous Group of Students at Michigan State University. J. H. Britt, P. A. Noden, and R. S. Emery	832
Cornell's Approach – A Flexible Curriculum for Students with Diverse Backgrounds. J. M. Elliot	836
Providing Opportunities for Students with Diverse Backgrounds and Interests – The California Approach. N. E. Smith	839
