

Journal of Dairy Science

February 1982

Volume 65, Number 2

CONTENTS.

NEWS AND EVENTS	4
GENERAL INTEREST:	
Administrative Information.	3
RESEARCH PAPERS:	
Identification of λ -Casein as Plasmin-Derived Fragments of Bovine α_{s1} -Casein. W. R. Aimutis and W. N. Eigel	175
Rapid Determination of Volatile Nitrosamines in Nonfat Dry Milk. D. C. Havery, J. H. Hotchkiss, and T. Fazio	182
Effect of Fermentation on Volatile Acids and Ethanol in Swedish Dairy Products. L. Alm	186
Flavor Evaluation and Characterization of Yogurt as Affected by Ultra-High Temperature and Vat Processes. A. E. Labropoulos, J. K. Palmer, and P. Tao	191
Lactate Acid Inhibition of <i>Salmonella typhimurium</i> in Yogurt. H. E. Rubin, T. Nerad, and F. Vaughan	197
Milk Yield and Secretion Composition Following Intramammary Infusion of Colchicine. S. P. Oliver and K. L. Smith.	204
Chronological Profiles of Prolactin and Growth Hormone in Lactating Cows. T. A. Mollett and P. V. Malven.	211
Nitrogen Fractions in Selected Feedstuffs. U. Krishnamoorthy, T. V. Muscato, C. J. Sniffen, and P. J. Van Soest	217
Effect of Peptides and Amino Acids on Efficiency of Rumen Bacterial Protein Synthesis in Continuous Culture. M. A. Cotta and J. B. Russell	226
Effect of Heating Soybean Meal for Dairy Cows. D. T. Netemeyer, L. J. Bush, J. W. Ward, and S. A. Jafri	235
Effect of Calcium Buffers and Whole Plant Processing on Starch Digestibility of Sorghum Based Diets in Holstein Cows. J. A. Fernandez, C. E. Coppock, and L. M. Schake.	242
Evaluation of a Model Laboratory Silo. M. G. El Hag, R. L. Vetter, M. D. Kenealy, and R. J. Smith.	250
Effects of Silage Additives on Fermentation Characteristics of Corn Silage and Performance of Feedlot Heifers. M. G. El Hag, R. L. Vetter, and M. D. Kenealy	259

Sunflower Silage in Rations for Lactating Holstein Cows. V. M. Thomas, G. A. Murray, D. L. Thacker, and D. N. Sneddon	267
Feeding Milk Containing <i>Staphylococcus aureus</i> to Calves. P. B. Barto, L. J. Bush, and G. D. Adams	271
Environmental Factors Influencing Test-Day Somatic Cell Counts in Holsteins. B. W. Kennedy, M. S. Sethar, A.K.W. Tong, J. E. Moxley, and B. R. Downey	275

TECHNICAL NOTES:

Effect of Litter Size and Parity on Weight Gains of Albino Mice Litters. R. R. Reddy and E. M Reddy	281
Derivation of Henderson's Method of Incorporating Artificial Insemination Sire Evaluations into Intraherd Prediction of Breeding Values. L. D. Van Vleck	284

SYMPOSIUM: MILK SYNTHESIS

Amino Acid Utilization by Lactating Mammary Gland. T. B. Mepham	287
Early Events in Secretion of Main Milk Proteins: Occurrence of Precursors. J.-C. Mercier and P. Gaye	299
β_2 -Microglobulin and Its Relationship to the Immune System. M. L. Groves and R. Greenberg	317
Oxytocin Receptors and Mammary Myoepithelial Cells. M. S. Soloff	326
